SOLID SURFACE MOLDEADO

SOLID

VALENCIA

SOLID SURFACE MOLDEADO

SSV es Solid Surface de última generación, tecnológicamente avanzado. Su composición consiste en un porcentaje elevado de minerales naturales (ATH) y un bajo porcentaje de polímeros de gran resistencia, lo que lo hace reciclable al 100%.

SSV es un material compacto, no poroso, anti-bacteriano, higiénico, resistente, durable, fácil de limpiar y reparar, resistente a los rayos ultravioleta, prácticamente ignífugo y con un tacto confortable.

SSV permite libertad de formas, con lo que las cualidades técnicas se suman a las estéticas. El material se conforma en moldes para obtener con absoluta precisión la forma deseada, siendo posible realizar grandes volúmenes y formatos de pieza.

SSV ha sido seleccionado por empresas líderes y diseñadores de vanguardia para incorporarlo a sus proyectos actuales.

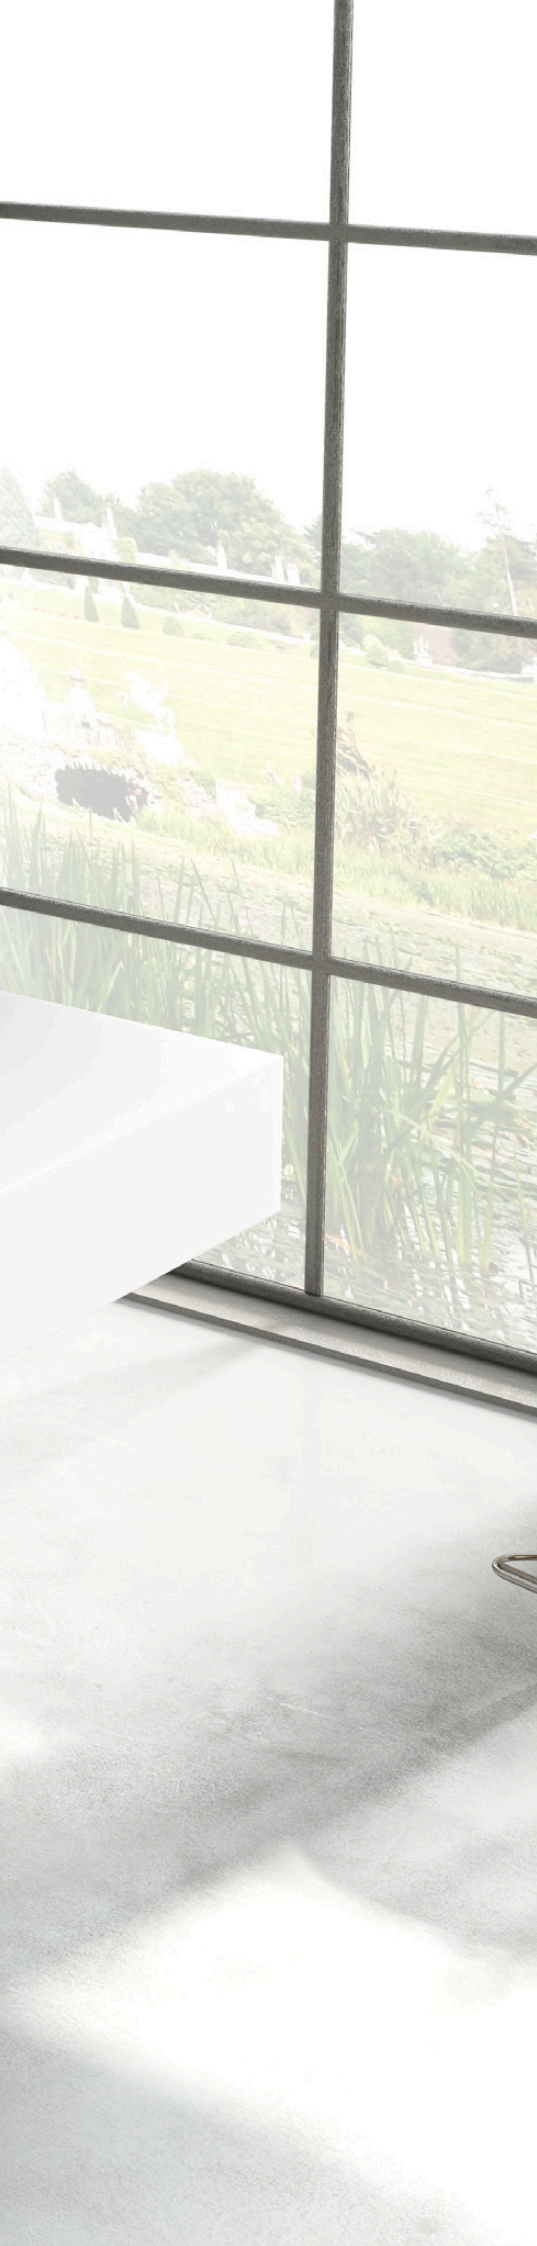

SSV is a Solid Surface technologically Advanced product. The composition consists of a high percentage of natural minerals (ATH) and a low percentage of polymers of high strength, which makes it 100% recyclable.

SSV is a compact material, non-porous, antibacterial, hygienic, resistant, durable, easy to clean and repair, and resistant to ultraviolet rays, fire-resistant and beautiful to touch.

SSV allows you to create different forms, the technical properties add to the wider decoration. The material is poured into the mold to the desired design, with possible large formats and volumes to the piece.

SSV has been selected by leading companies and innovative designers to incorporate it into their current projects.

Ficha Técnica / Technical data sheet

Propiedad /Property	Método / Test Method	Resultado / Test Result	Unidades de Medición / Units
Propiedades mecánicas / Technical properties			
Densidad / Density	DIN ISO 1183	1,72	gr/cm3
Módulo de Elasticidad / Modulus of elasticity	EN ISO 178:2003	8642	MPa
Resistencia a la Flexión / Bending stiffness	EN ISO 178:2003	62,5	MPa
Resistencia a Tracción / Tensile strength	EN ISO 527:1996	45	MPa
Elongación / Tensile modulus	EN ISO 527:1996	0,5	%
Resistencia a la compresión / Compressive strength	EN ISO 604	192	MPa
Resistencia a la tracción - Modulo elástico / Tensile modulus	EN ISO 527:1996	8932	MPa
Indices de dureza /Hardness Index			
Dureza de superficie / scratch hardness of surface	DIN EN 101	3-4	índice Mohs / Mohs Index
Dureza Barcol / Barcol hardness	ASTM D 2583-81	61	índice Barcol / Barcol Index
Resistencia al uso de la superficie / Resistance to surface wear	DIN ISO 4586 T6	42	peso perdido/loss weight mm3/100rev
Resistencia al impacto (caída de bola) / Impact strength (ball drop)	DIN ISO 4586 T2	>120	cm
Resistencia a la abrasión Taber tras 750 ciclos (pérdida de masa) / Taber Abrasion strength > 750 cycles (Loss of mass)	CEN TC 163	352	mg
Dilatación térmica / Thermal expansion			
Coefficiente de dilatación térmica lineal por °C / Coefficient of linear thermal expansion for °C	ASTM D696	$2,91 \times 10^{-5}$	α
Estabilidad dimensional a temperatura elevada (con calor seco) (tras 24 h en estufa a 70°C) / Dimensional stability at high temperatures (with dry heat) (after 24hour in stove at 70°C)	UNE EN 438-2	200,15 (inicial 200)	mm
Resistencia al choque térmico (75°C - 12°C) / Thermal shock resistance (75°C- 12°C)	UNE EN 14527	SUPERADO / SATISFACTORY (NOT BREAK)	---
Propiedades sanitarias / Sanitary properties			
Resistencia a Bacterias y Hongos / Resistance to bacteria and fungi	DIN EN ISO 846	Ayuda a la no proliferación de bacterias / No proliferation	---
Aptitud del material para uso alimentario / Suitability of food material	UNE EN ISO 1186	APTO / VALID	---

Resistencia al calor / Surface resistance			
Resistencia al calor seco 180°C / Surface resistance to dry heat 180°C	DIN ISO 4586 T 8	5	SIN CAMBIO / NO CHANGE
Temperatura de flexión bajo carga / Bending temperature under load	UNE EN ISO 75-2	65	°C
Comportamiento con el agua / Behaviour in water			
Absorción de agua / Water absorption	UNI EN 62 2001	<0,05	% : Absorción de agua después de 48 horas / Water absorption after that 48 hours
Resistencia a la inmersión en agua hirviendo / Resistance to immersion in boiling water	UNE EN 438-2	SUPERADA / OVERCOME	---
Antideslizamiento / Anti-slip			
Propiedades antideslizamiento con acabado 150 micras / Anti-slip properties with 150 µm	DIN ISO 51130:1992-11	8,1 ° - CONFORME A LA NORMA / IN ACCORDANCE WITH THE NORM	ANGULO/ ANGLE
Comportamiento al fuego / Fire performance			
Calor de combustión / Combustion heat	NF EN ISO 1716	8,2	KJ/gr
Toxicidad de los gases de combustión / Toxicity of the combustion gases	NF F 16-101	Class F0	---
Reacción al fuego / Reaction to fire	NF P 92-501	Class M2	---
Clasificación fuego / Fire classification	EN 13501-1:2003	Euroclass B - s1, d0	---
Smoke toxicity	DIN EN ISO 5659-2	SUPERADA / OVERCOME	---

Solid Valencia se fabrica en España, en las instalaciones de **SV**. Los controles de calidad aplicados a materias primas, proceso y producto terminado, garantizan el cumplimiento de características y prestaciones del material.

Solid Valencia is a factory in Spain. The quality controls applied to raw materials, process and finished product, guarantee as the fulfillment of the characteristics and benefits of the material.

Solid Valencia cumple con la Norma Internacional de Superficies Sólidas, ISO 19712.
Solid Valencia complies with the international standard of solid surfaces, ISO 19712

Resistencia a los productos de limpieza doméstica

Hipoclorito de sodio (lejía) 24 h =	5
Lisol 24h =	5
Viakal 24h =	5
